Personal Profile

- Father's name:- RATUL CHANDRA BORA
Mother's name:- MONJU BORA
Date of Birth:- 18/04/1997
Sex :- Male
Nationality:- Indian
Address:- Pub jyotinagar bamunimaidan bye lane 8 noonmati guwahati 781020

Objective

Skilled web developer, designer, and programmer with expertise in creating visually appealing and functional websites. Committed to excellence.

Skills

- Web development
- Javascript
- WordPress
- PYTHON
- Bootstrap
- Django
- Utilizes tools such as OpenAI, Flowise, Chatbase, and Pinecone

Projects

- Obstacle detection using arduino**
In this project an obstacle detection system will be built with Arduino. This system mainly uses an ultrasound sensor, buzzer and LED.
- Sparinfotech.in**
Developed responsive websites with HTML, CSS, and JavaScript, ensuring functionality, design integrity, and user experience optimization.
- My portfolio**
Developed a dynamic personal portfolio website using HTML, CSS, and JavaScript. Designed a responsive layout, implemented interactive features, and optimized for performance. Showcased projects, skills, and a blog section, enhancing online presence and user engagement.
- Bitumen calculator**
Created a Bitumen Calculator using HTML, CSS, and JavaScript. The tool allows users to input dimensions and calculate the required bitumen quantity for road construction. Designed an intuitive interface and ensured accurate calculations, improving efficiency for construction planning and resource management.
- Email automation**
Developed a Bulk Email Automation tool using Python. Utilized libraries such as smtplib and pandas to send personalized emails to multiple recipients efficiently. Integrated features for email customization and scheduling, enhancing communication efficiency for marketing campaigns and client outreach.
- Voice-Activated Virtual Assistant**
Developed a Voice-Activated Virtual Assistant using Python. Leveraged libraries like SpeechRecognition and pyttsx3 to process voice commands and execute tasks such as web searches, sending emails, and setting reminders. Enhanced user convenience and interaction through natural language processing and real-time response capabilities.

Experience

- SPAR INFOTECH**
Web developer and python developer
 - Proficient Web Developer with expertise in HTML, CSS, JavaScript, and Python.
 - Experience in developing chatbots for lead generation.

- Utilizes tools such as OpenAI, Flowise, Chatbase, and Pinecone.
